

PRODUCT No. 7228

Transport pallet for 4 gas bottles

(Illustrative photograph)

Technical data

Material	Steel sheet and profiles
Weight (without chain and shackles)	55 (49,8) kg
Max. no. of bottles	4x
Chain length	500 mm
Width	862 mm
Depth	650 mm
Height	1138 mm

Attributes

- Made of solid steel sheet, bars and profiles.
- Serves for safe transportation of 4 bottles up to a 250 mm diameter.
- The pallet is divided into two parts (cells for storing bottles).
- Surface finishing is made by hot-dip galvanization.
- Product has high resistance to weather conditions.
- Equipped with loops for securing (fixation).
- Delivered with chain and two shackles to secure the pallet during transport.
- The transport is carried out by means of fork-lift machinery from both sides.

Product purpose

- Designed for the safe storage and transportation of technical gas bottles.
